

Development Project Manager

I enjoy prospecting for new sites, working with land owners and developing new renewable energy projects. I'm across all matters relating to our project sites, from identification, design, planning and permitting, financing, selecting construction partners etc. It's a long list! For me, everything is on a need-to-know basis!

Environment

Indoor office and outdoors at project sites

Working at a computer

Working with others

Working with hands

Solving problems
