

## Planner

It's my job to figure out how best to work with authorities to get our projects approved. I work between engineers and governments so we can apply for permission to build our renewable energy projects. This job throws lots of problems at you, from land use restrictions to environmental or community issues. Adapt and overcome I say!

## Environment

Indoor office

Working at a computer

Working with others

Working with hands

Solving problems

Being creative

Working with people

Leading and guiding

Data and details
