

Wind Engineer

I design wind farms so we can turn wind into renewable energy. What turbines we use, where we place them, and how to improve their performance, that's all me. Show me a topographical map and some historical wind speed data and I'm happy!

Environment

Indoor office

Working at a computer

Sometimes outdoors on project sites

Working with hands

Solving problems

Being creative

Working with people

Leading and guiding

Data and details

Skills

- Engineering and Technology
- Mathematics
- Design
- Physics
- English Language

Qualifications

- Bachelor Degree or higher qualification in engineering majoring in electrical.
- Prior work as an Electrical Engineer
- Licensing or registration required

Benefits

59% higher salary*

STRONG future demand expected

*Average of all Australian occupations
